

The new XCeed.

Movement that inspires

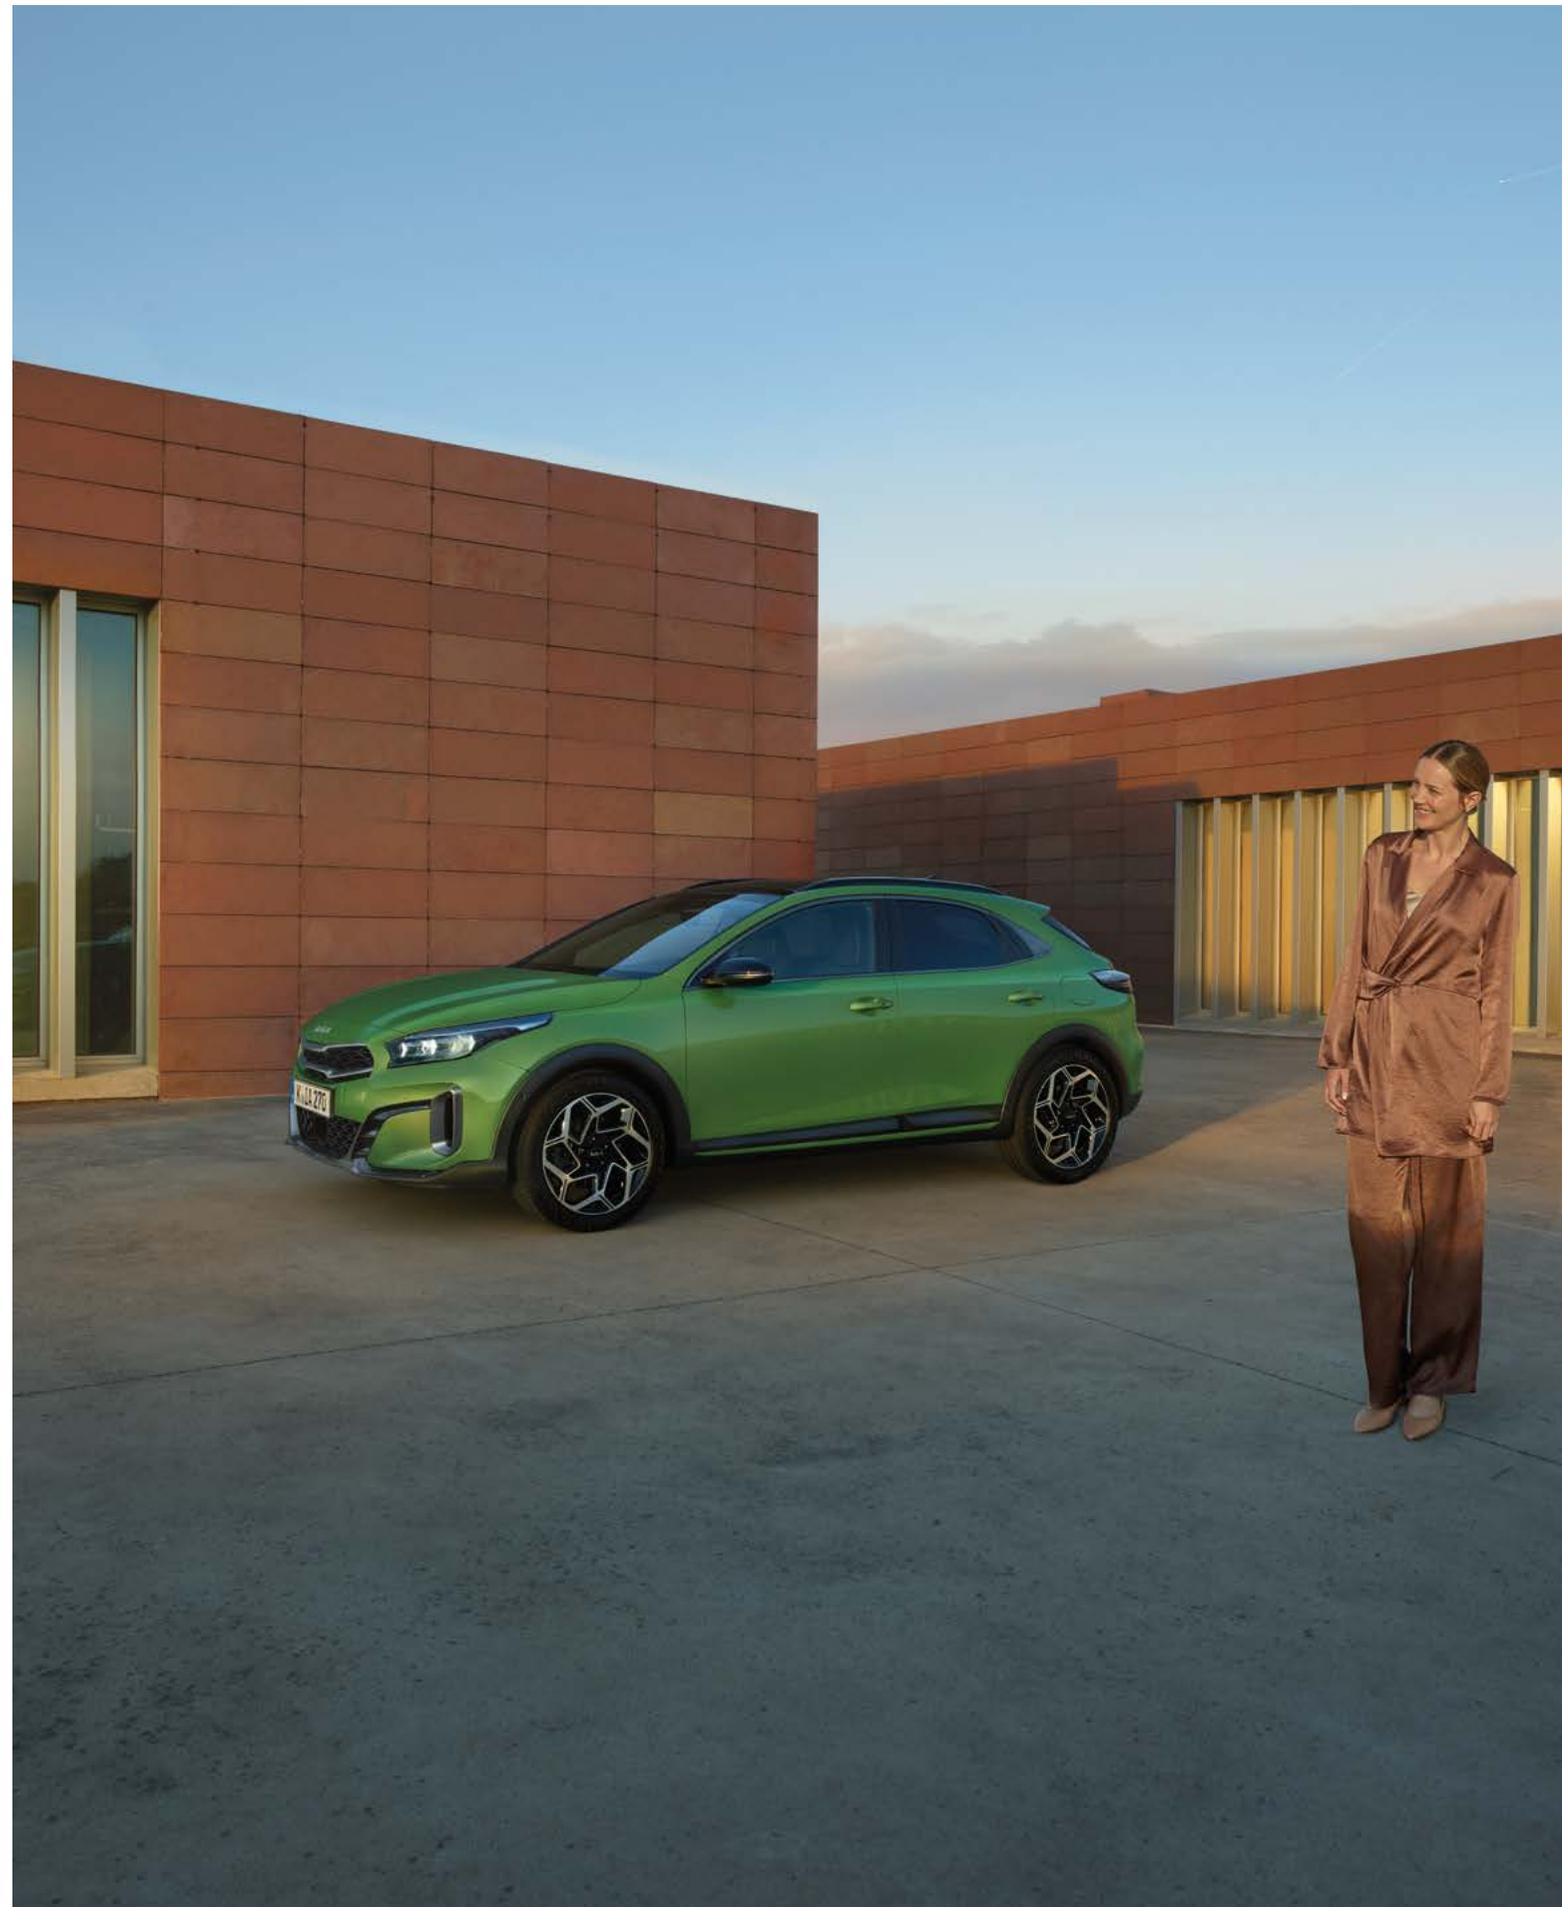

The new Kia XCeed. The crossover. Redefined.

Life moves fast. You have places to go, people to see, ideas to bring to life. You need a car that can keep up. A car that delivers on the practical side of things, while also bringing you the kind of style, innovation and inspiration that drives you. The new Kia XCeed is a crossover that redefines the category. A crossover that offers you impressive functionality, along with all the things that matter most to you. You'll love the bolder-than-ever sporty design. The way the new Kia XCeed demands to be noticed. The smart connectivity features that let you stay in touch on the go. Choose between the powerful petrol and diesel engine, or the plug-in hybrid's fuel-saving powertrain which will satisfy your need for both sustainable mobility and high performance. Either way, with the new Kia XCeed, you'll discover a crossover designed to match your lifestyle. And go beyond all expectations.

The spirit of pure sportiness.

The new Kia XCeed is designed to be distinctive. To stand out, to take up space and to appeal to those who appreciate beauty. From every angle, the expressive, sculptural design grabs your attention. Clear, strong proportions create an undeniably bold stance and an iconic silhouette that's instantly recognisable. Edgy, eye-catching enhancements in the GT-line include new LED taillights, a dedicated grille and a revamped bumper. Dark satin chrome inserts and the GT-line's new dedicated 18" alloy wheel design round off the crossover's athletic appeal, and elevate the sporty aesthetic even further.

A space that speaks your language.

The new Kia XCeed offers you a balance of comfort, sportiness and style. Most importantly, it's made to revolve around you. Inside the cabin, you'll find a space where you'll feel both at ease and in control, thanks to sophisticated details, premium materials and a clean tech aesthetic. The D-Cut steering wheel with striking GT-line emblem feels as good as it looks. The new black headliner, new perforated leather gear knob and stylish grey stitching on the leather seats add to the crossover's distinctive style - and to the pleasure of every ride.

For settling in. And standing out.

The new Kia XCeed Plug-In Hybrid is designed to delight, from the way it looks and drives, to the experience of being inside. The spacious and stylish interior will make you feel right at home from the moment you take your seat. In fact, with plush materials, striking design and enhanced comfort features, you'll be inspired to spend even more time on the road.

Dashboard Interior. The new Kia XCeed Plug-In Hybrid redefines what functionality looks like, with sleek design, smooth finishes and sporty touches. Everything you need is right where you need it. Starting with the stand-out themes for the 12.3" digital cluster, and the new automatic gear shift panel in glossy black. A new rear-view mirror with thin bezel gives an added touch of sportiness to the cabin, while newly designed control labels keep the latest tech features conveniently at your fingertips.

Charging station. Charge up on the go at the charging station or service point that's most convenient for you.

Charging socket. An integrated charging socket allows you to charge easily every time - from the comfort of your home, or at any public charging station. For a full recharge, you'll need just 2 hours, 15 minutes.

Charging indicator. Keep track of your charging status with the handy charging indicator. Located within the speaker grille in the middle of the dashboard (and easily visible even from outside the car), the indicator's three LED lights activate as you plug in to charge and keep you informed of the charging status and battery level.

Electrify your journeys.

The future is electric. And the new Kia XCeed Plug-In Hybrid makes low-emission driving as dynamic as it gets. You'll move swiftly and smoothly between electric and hybrid mode. With a fully charged battery, there's a range of over 50 km to take you far and wide, wherever the road tempts you. The advanced new powertrain ensures a ride that's as robust and powerful as you like it. Finally, charging is easier than ever. You can do it either from the comfort of your own home or on the go. Because with the new Kia XCeed Plug-In Hybrid, the choice is yours.

Cutting-edge ways to stay in touch.

Ideas don't keep office hours. Inspiration can strike any time of the day or night. Maybe it's a place you've never visited, or a call you've been meaning to make for ages. Perhaps a friend you need to see. Well, with its full range of advanced connectivity features and innovations, the new Kia XCeed lets you keep the world as close as you need it to be.

10.25" Navigation System. Navigation, information and entertainment are seamless and stress-free thanks to the sleek 10.25" navigation system.

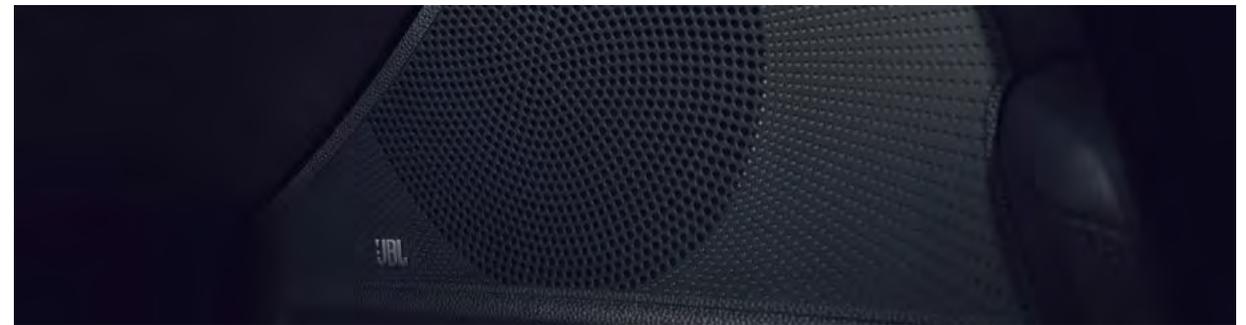

Digital instrument cluster. One glance is all you need to stay informed. The sleek new 12.3" instrument cluster puts the important things front and centre, in high-definition display.

Wireless charging. Functionality is key in the new Kia XCeed. And since few things are more essential than a fully charged smartphone, you'll find the high-speed wireless charging bay an inspired addition to the cabin.

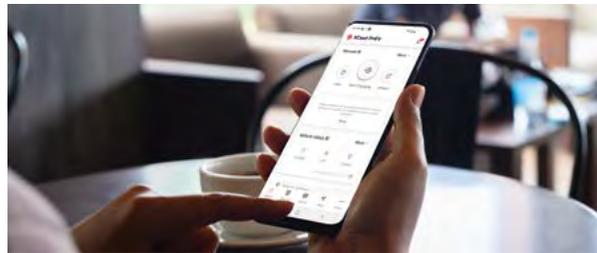

Rear Seat USB-C charging ports. Everyone has the power in the new Kia XCeed - including your rear passengers, who have a handy USB-C charging port to keep them connected and in-charge while on the go.

JBL sound system. Every journey needs a soundtrack. Whether it's the local radio station, your favourite podcast or an album you never get tired of hearing. With the JBL sound system, you'll want to linger behind the wheel. Eight speakers and advanced Clari-Fi music restoration technology deliver premium, high-definition sound for all your listening pleasure.

In touch and in the know. Wherever you go.

Connection is everything. It's how you work. How you play. How you keep in touch with the people in your life. It's no different in your car. In fact, being connected on the road brings you the kind of convenience, peace of mind and practical support which makes every journey that much more enjoyable. With the Kia Connect app and Kia Connect on-board services, you'll be able to stay informed about the important things at all times. Seamless online navigation using real-time traffic data. Information about fuelling or charging stations, parking, weather and points of interest, voice recognition and so much more. The Kia Connect app also lets you access User Profile Transfer, Last-Mile Navigation, Valet Mode, Find My Car, Door Control and many other features that make life behind the wheel an absolute pleasure.

Journeys made simple. With the interactive Kia Connect app on your smartphone, convenience is everywhere. Misplaced your car? Tap the Find My Car function to locate it. Once you've parked, Last-Mile Navigation will guide you from your car to your end destination to make sure you get where you're going. When a different driver is behind the wheel, the Valet Mode function keeps you updated on your car's location, driving time, distance and top speed. Big journey ahead? Send To Car lets you plan and set destinations in advance and even checks your vehicle status before you go. Naturally, you don't need to worry about locking and unlocking doors - Remote Door Control takes care of it. And if you want to look back on all the journeys you've taken, simply find them summarised under My Trips.

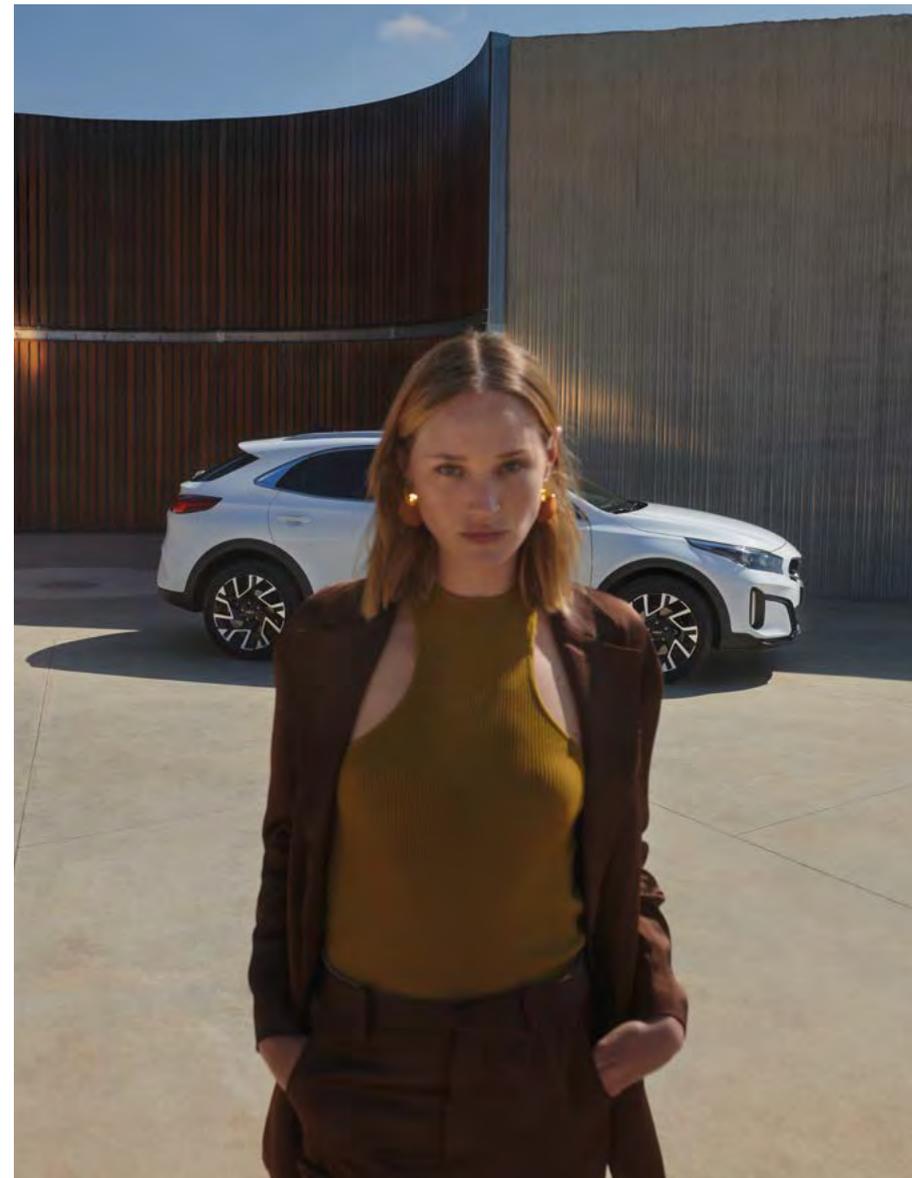

Remote reassurance when you need it most. With Kia Connect, you'll never have to worry about your car again. Remote notifications will keep you in the loop with information on battery charge and other important diagnostics. Concerned about a break-in? Kia Connect's anti-theft alarm will keep you alerted about any potential threats. And for those days when you've got other things on your mind, the vehicle idle alarm will notify you if you've momentarily left the engine running in Park mode (gear P) with the door open.

Hassle-free electric. Our innovative electric models are designed to make life better - and that includes all the practicalities of driving one. The Kia Connect app allows you to access battery charging to start, stop and schedule the charging process. When it comes to finding a charging station, you'll never have to stress: Kia Connect on-board services let you search live EV stations and receive up-to-date, real-time information on the closest options, as well as other details like plug availability and compatible connector types.
*Only available on PHEV.

Full service. Fully seamless. Whatever you need help with, Kia Connect on-board services have you covered. Looking for a faster route? Navigate your way to any destination with real-time traffic data, including constantly updated adjustments and estimated arrival time. Worried you might be a little cold? Use Kia Connect Live Services to check the weather, and while you're at it, you can check parking availability and points of interest, as well as nearby charging stations. Activate voice recognition and you can make hands-free voice commands anytime you need to call home or play a song. You can also change or restore your vehicle settings with user profile transfer. Did we mention you can access your smartphone calendar on your navigation screen, via the third-party calendar? This guides you directly to your next appointment - on time, of course.

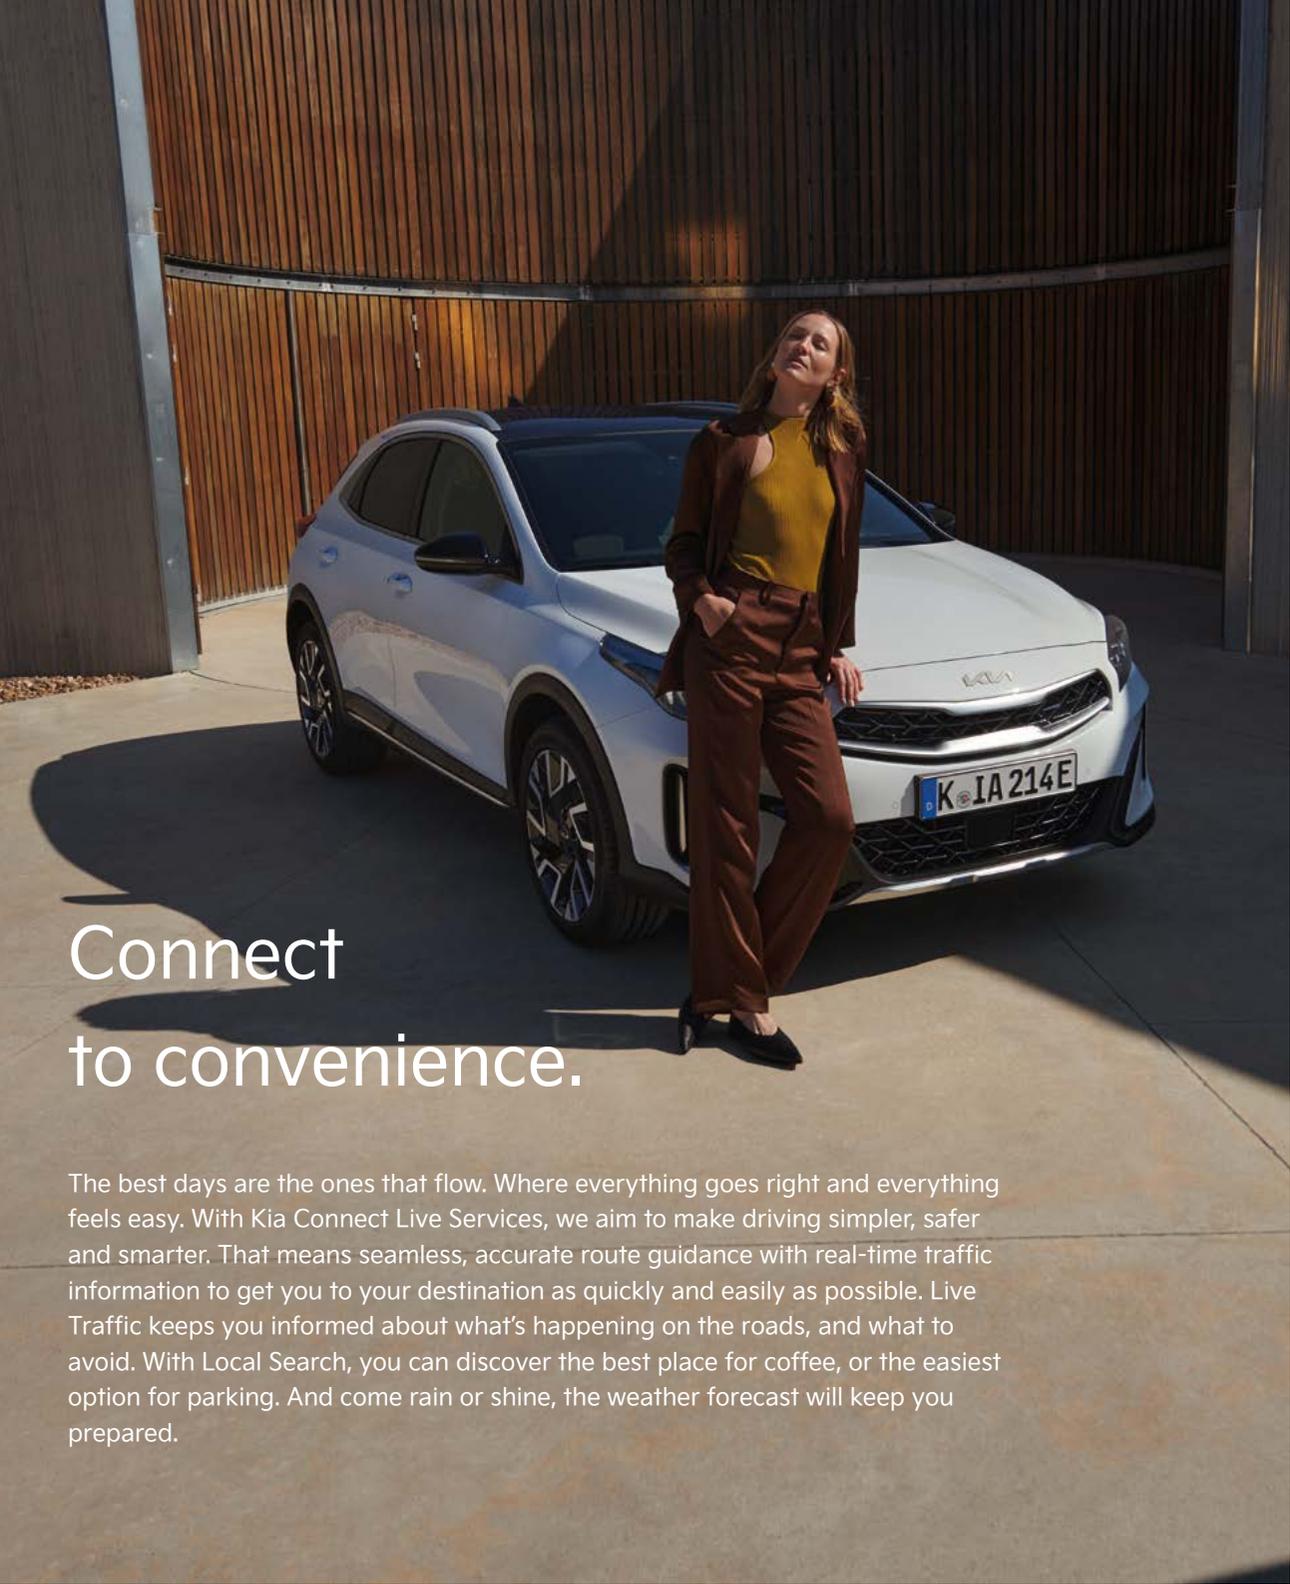

The displayed Kia Connect screens are for illustration purposes only and do not necessarily show the latest version of the Kia Connect app and Kia Connect on-board services.

For any questions regarding regulations or legal details, please check the Kia Connect Terms of Use.

* Information and control service for your Kia; the services will be available free of charge for a period of seven years commencing on the day the vehicle is sold to the first owner of the vehicle, i.e. the point in time the initial purchase agreement becomes effective, and may be subject to change during that period. Details of operation and terms of use can be obtained from your Kia partner and on kia.com. Smartphone with iOS or Android operating system and mobile phone contract with data option necessary, incurring additional cost.

For new vehicles sold from May 2022, Kia offers, per vehicle, two free-of-charge updates of the maps in the vehicle's navigation system and of the Head Unit software using the so-called "over-the-air" method ("OTA Updates"). Once the two free-of-charge OTA Updates have been consumed, you will be able to get free-of-charge updates of the maps in the vehicle's navigation system and of the Head Unit software only (i) by accessing the following web page <https://update.kia.com/EU/E1/Main> or (ii) at a dealership.

Connect to convenience.

The best days are the ones that flow. Where everything goes right and everything feels easy. With Kia Connect Live Services, we aim to make driving simpler, safer and smarter. That means seamless, accurate route guidance with real-time traffic information to get you to your destination as quickly and easily as possible. Live Traffic keeps you informed about what's happening on the roads, and what to avoid. With Local Search, you can discover the best place for coffee, or the easiest option for parking. And come rain or shine, the weather forecast will keep you prepared.

Safety always comes first when driving. Apple CarPlay™ lets you use your iPhone with full peace of mind. Need directions to your dinner date, or want to listen to a podcast while you drive to work? Apple CarPlay™ puts everything onto your navigation display, so you can stay focused on the road.

With Android Auto™, everything you like to connect to is front and centre. The simple, intuitive interface lets you access features like Google Maps, apps, music and voice control. It automatically organises info into simple cards, so you can make that call, check that app or play that song while staying safe.

Seamless parking and charging. Parking your car has never been easier. With Kia Connect Live Services, parking spots are displayed before you arrive at your destination. You'll see potential on-street parking spaces based on historic data, as well as off-street parking with colour-coded availability.

How's that for convenience? For those with electric vehicles, charging is just as easy. The online directory shows you where to find the nearest charging station, and even details like plug availability and compatible connector types.

Keep moving. You'll always stay on the move with highly accurate, live traffic information that's updated every two minutes to keep your journeys smooth. Avoid congestion, roadworks and anything else that might delay you. If things get busy, the system will alert you and suggest an alternative route.

Find everything you need. Hungry for a bite or looking for a bookstore? Local Search will find whatever you're after. When it comes to weather, you'll always be prepared. Just type in your destination to see a four-day summary, complete with minimum and maximum temperatures and chances of sun or rain.

* Smartphone with data plan required to activate services.

** Legal restrictions to these services may apply depending on country usage.

For all the memorable moments ahead.

Life can take us to all sorts of places, to journeys near and far, to roads known and unknown. With the new Kia XCeed, we wanted to create a car so comfortable and flexible that you'll always be ready to go. To travel an extra mile or stay another night away. With a spacious interior, a generous amount of boot space and foldable seats, you'll have more than enough room for everyone. For that little added enjoyment, you'll find heated and ventilated seats to keep you comfortable come rain or shine.

40:20:40 flat-folded seats. Because your comfort and convenience are at the heart of the new Kia XCeed, your seats fold 40:20:40.

Integrated memory seat button. Don't even think about it. Integrated memory seat buttons will make sure you're comfortable on every ride - just the way you like it.

Heated and ventilated seats. Stay cool or cosy. The new Kia XCeed boasts front and rear seats which can be heated on cooler days to keep you nice and warm. The seats warm quickly and then stay at the temperature you've chosen for as long as you need. On hot days, the front seats can be ventilated to keep you comfortable.

Heated steering wheel. It's the small things that can make all the difference, and the new Kia XCeed has thought of everything. A warm steering wheel on a cold day will go a long way to making your journeys even more enjoyable.

The combination of power and grace.

We believe that movement is about more than getting from A to B. It's a dance, a marvel of power and agility, a way to feel exhilarated. In the new Kia XCeed, you'll find each drive to be an absolute pleasure. Expect dynamic, fluid performance on the road thanks to a range of powertrains which can be configured with 6-speed manual or 7-speed dual-clutch transmissions. Gear changes are seamless with paddle shift levers that allow you to smoothly transition from gear to gear without taking your hands off the wheel. And, with additional drive mode options, you can be sure that you'll always be up for a little more time in the driver's seat.

Automatic transmission. The new Kia XCeed redefines sporty driving - in both performance and looks. The new glossy black PRND panel around the centre console lets you choose between P(arking) R(everse) N(eutral) and D(rive) modes, while adding another touch of boldness to the interior. In the GT-line, you'll also find a stylish new perforated leather gear knob.

Cluster. Enjoy every journey to the fullest knowing that everything which requires your attention is right in front of you. The refined yet sporty instrument cluster offers a widescreen display and high-definition graphics so that you'll have the full picture at all times.

HEV button. Smooth and seamless is the name of the game with the new Kia XCeed. The Hybrid/Electric (HEV/EV) button on the centre console lets you switch between electric and hybrid mode. Ideal for urban driving, EV mode prioritises electric-only energy for emissions-free driving*. In HEV mode, it operates both energy sources, changing between using only the petrol engine, only the electric engine or both, depending on the terrain.

Drive Mode Selection. Give your driving pleasure a boost with the Drive Mode Select button, which can be easily changed via the Sport switch on the centre console. Together with the dual-clutch transmission, it increases driving dynamics by providing an enhanced throttle response and acceleration from idle, as well as optimising performance while overtaking. Drive Mode Select also offers better steering response and perfectly complements the 18" alloy wheels for a thoroughly dynamic drive.

Technologies to keep your journeys safe.

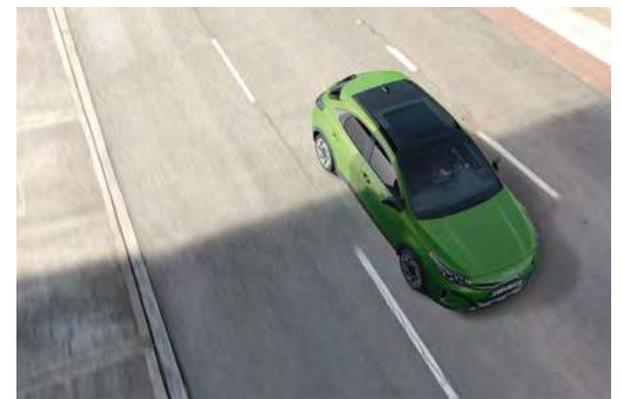

We know that some things are not negotiable. Like peace of mind, safety and feeling in control behind the wheel. That's why every one of our cars is built to prioritise keeping you and your passengers safe. Thanks to the latest intuitive technologies and assistive features, the new Kia Xceed lets you enjoy your journeys to the fullest. Because rest assured, we've got you covered.

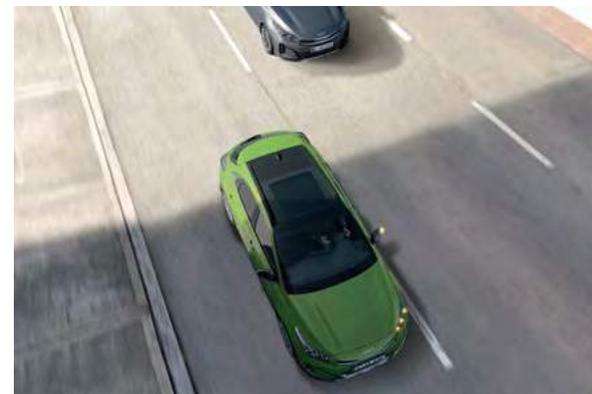

Driver Attention Warning+. With the smart Driver Attention Warning+ feature, you'll be cautioned when you need to refocus on the road. You'll also receive a warning when the car ahead restarts after a standstill.

Rear Cross-Traffic Collision-Avoidance. Hassle-free reversing is here. The Rear Cross-Traffic Collision-Avoidance system uses rear-mounted sensors to detect oncoming cars when you're reversing out of a parking space or driveway, helping to avoid and prevent rear collisions.

Lane Following Assist. The new Kia Xceed is loaded with advanced technologies - Lane Following Assist is one of the most impressive. LFA controls acceleration, braking and steering depending on the vehicles in front, making it easier and safer to move in traffic jams. The system uses a camera and radar sensors to maintain a safe distance to the preceding vehicle and monitors road markings to keep your car in the centre of your lane. LFA works between 0 and 180 km/h.

Blind-Spot Collision-Avoidance Assist. Another innovative assistive technology to make your time on the road safer and stress-free is the Blind-Spot Collision Warning system. A feature which uses a front camera and rear radar sensor to monitor blind spots and warn of oncoming cars via a symbol in the side-view mirror.

NSCC - Smart Cruise Control. Rush hour is a breeze with Smart Cruise Control. The system allows you to maintain a set speed of your choosing, as well as a safe distance from the car ahead. Sensors track the distance between vehicles and reduce or increase speed to maintain it - without exceeding the set cruising speed.

Make it yours.

There's no doubt that the new Kia XCeed is designed to make a statement. And of course, you get to have your say, too. Pick and choose between a range of stylish and sumptuous interior options, composed of carefully selected and beautifully crafted materials and trims. A sure-fire way to make your crossover truly yours.

LX standard. The standard LX grade interior features sporty all-black fabric seat upholstery and striking satin chrome finishes.

EX standard. The standard EX grade features a stylish mix of black artificial leather and cloth seats with a blue accent, as well as an eye-catching high-gloss centre fascia with satin chrome finish.

EX option 1. Opt for added sportiness with black cloth and artificial leather seats, a high-gloss centre fascia and satin chrome dashboard accents.

EX option 2. Settle in for extra comfort with genuine full-leather seats, a striking high-gloss centre fascia and satin chrome dashboard accents.

GT-line standard. The GT-line standard cloth and artificial-leather interior features black fabric seats and bolster upholstery with black stitching.

GT-line suede and artificial leather. Smooth yet striking, the suede and artificial-leather option adds an extra touch of sporty style.

GT-line leather. Enjoy pure comfort and sophistication with the all-black full-leather option.

Powered by innovation.

The new Kia XCeed features a powerful, high-performing engine and low-emission driving. The Ecodynamics+ Mild-Hybrid Powertrain System pairs the latest 1.5 TGD_i petrol and 1.6 CRD_i diesel engine with a 48-volt lithium-ion battery to reduce fuel consumption and emissions. Plus, the clever integrated 'e-system' recovers kinetic energy during deceleration phases to provide torque assistance when accelerating. Win-win? Absolutely.

Start. The engine is started by the 'e-system' to ensure a prompt and smooth start.

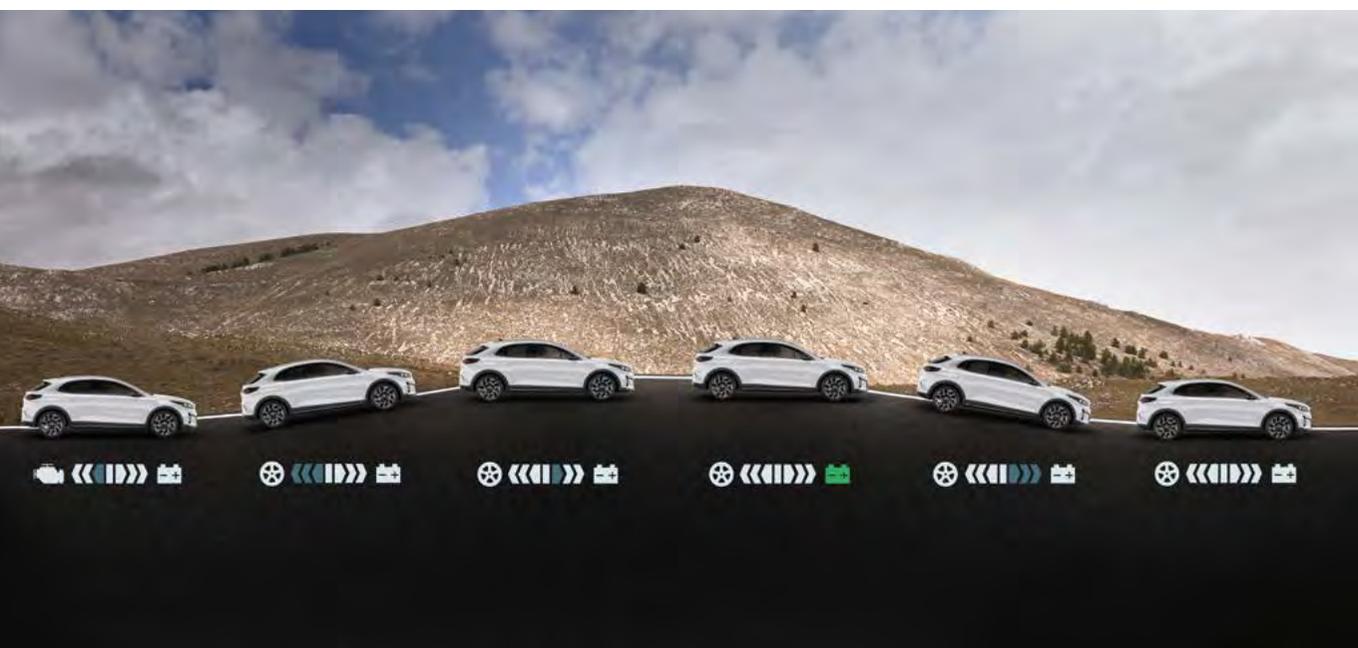

Torque Assist. During acceleration or uphill driving, the 'e-system' provides torque assistance by taking energy from the battery to support the engine.

Cruising. When driving at a constant speed, the combustion engine partially recharges the battery on the go if the charge level is low.

Sailing. Mild Hybrid with iMT additionally features the 'sailing function'. When the driver lifts their foot from the throttle and lets the car sail without accelerating, the engine will seamlessly and smoothly switch off, resulting in fuel savings. As soon as the throttle is pressed, the engine will immediately take over. The distance covered with the engine off depends on driving conditions and vehicle speed.

Energy Recuperation. When decelerating or braking, the energy generated by the vehicle motion is converted into electrical energy to recharge the battery.

Moving Stop & Start. When decelerating to a stop, the combustion engine turns off automatically during in-gear deceleration and braking to save fuel.

Smart Technology. At the touch of the Hybrid/Electric (HEV/EV) button located on the centre console, you can prioritise between electric and hybrid mode. In EV mode - ideal for urban driving - the XCeed Plug-in Hybrid prioritises electric-only energy for emissions-free driving*. In HEV mode, it operates both energy sources, switching between using the petrol engine only, the electric engine only or both simultaneously depending on the situation.

* There are certain situations in which the petrol engine will automatically activate even when the vehicle is in EV mode. Examples could include: when the hybrid battery state of charge is reduced to a certain level, when acceleration demand is high and/or when it is required to heat up the cabin.

From subtle to stand-out.

Distinctive, on trend and always classic. From bold to playful, urban to outdoor, you can choose exactly how you want to express yourself with the new Kia XCeed's vibrant palette of body colours. A choice between striking 16" or 18" alloy wheels completes the look, and ensures head-turning style.

16" alloy for ICE Base "S"

16" alloy for PHEV "S"

18" alloy for Base/PHEV "O"

18" alloy for GT-line "S"

Noise level data were determined according to the prescribed measurement procedure in accordance with Regulation (EU) No 540/2014 and Regulation No 51.03 UN/ECE [2018/798]: Driving noise: 63 dB(A) / stationary noise: 76 dB(A). Information about the tyres with respect to fuel efficiency and other parameters according to Regulation (EU) 2020/740 are available on our website, please visit www.kia.com. The information on tyres as indicated is for information only.

Complete
peace of mind.

When you purchase from the new Kia XCeed range, we want you to feel totally connected to your driving experience, not just today, but for years to come. That's why every new Kia comes with exclusive extended warranties.

7-year vehicle warranty. Every Kia benefits from a 7-year/150,000 km new car warranty (up to 3 years unlimited; from years 150,000 km). This bumper-to-bumper warranty is free and transferable to subsequent owners, provided the car is regularly maintained in accordance with the servicing schedule.

Kia 7-year EV/HEV/PHEV Battery Warranty.

When you switch to a Kia Electric (EV), Hybrid Electric (HEV) or Plug-in Hybrid (PHEV), it's good to know that our batteries are built to have a long life.* That's why at Kia we are happy to offer you a 7-year warranty either from initial registration or 150,000 km whichever comes first. Even for our low-voltage (48 V and 12 V) batteries in Kia Mild-Hybrid electric vehicles (MHEVs), our Kia warranty covers you for a period of 2 years from initial registration regardless of mileage.

All of which means you can simply enjoy the experience of driving our eco-friendly range, every day for years to come.

* Please note. For EV and PHEVs only, Kia guarantees a 70% battery capacity. Capacity reduction of the battery in HEV and MHEV vehicles is not covered by this warranty. To minimise possible capacity reduction, simply follow the instructions at kia.com or consult your Owner's Manual.
