Movement that inspires.

03

We believe in movement that inspires. Design that makes a statement. Technology that changes the game. The boundary-pushing EV6 is built to enrich your life with new experiences. On every ride, you'll feel it. The bold, rugged exterior. The fully electric SUV capabilities. The more sustainable interior. All innovated for the electrified era, and maximum enjoyment on the road.

Legal Disclaimers.

- ¹ In order to achieve the maximum charging speed, EV6 must be charged at an 800 volt charging station with at least 240 kW of electricity. The actual charging speed and charging time depend on battery temperature and weather conditions.
- ² Electricity consumption (kWh/100 km) combined from 15.9 to 17.7, CO2-Emission (g/km) combined is 0. Electricity consumption combined: [15.9-17.7] kWh/100 km; CO2-emissions combined: [0] g/km; CO2-class: [5]. The specified consumption and emission values were determined according to the legally prescribed measurement procedures (EU) 2017/1153. The above values have been tested in the Worldwide harmonized Light vehicle Test Procedure (WLTP); however, may not reflect real-world driving conditions. Actual energy consumption during driving may vary.

Static and moving imagery are used for illustration purposes only. Final product may show differences in comparison to the images employed. The models and specifications shown in this brochure may vary from the models available in your market. Due to the limits of the printing process, the car body colours shown may differ slightly from actual colours. Please contact your local Kia dealer for the most recent information.
